2 Reading Comprehension

- •••• كيفية الإجابة عن سؤال قطعة الفهم
 - يعطى الطالب نص مكوِّن من حوالي ١٠٠ كلمة.
- مطلوب من الطالب أن يجيب عن ثلاثة أسئلة اختيار من متعدد وثلاثة أسئلة مقالية.

| خطوات تساعدك على إجابة قطعة الفهم:

- 🕕 اقرأ الأسئلة أولا قبل قراءة القطعة نفسها لأن هذا يعطيك فكرة عامة عن موضوع القطعة.
 - 🥝 انتبه إلى ما تطلبه هذه الأسئلة من معلومات.
 - 🕃 اقرأ القطعة كلها بتأن مرة ثانية قبل أن تقوم بالإجابة عن الأسئلة.
- عندما تجد جملة فيها إجابة سؤال ضغ خطاً تحتها وأيضا إذا وجدت أرقام انتبه لها لأن واضغ الامتحان عادة
 ما يسأل عنها.
 - 🧔 اذا صادفت كلمة لا تعرف معناها حاول تخمين المعنى.

كيف تخمن معنى كلمة لا تعرف معناها

🕕 قد تتمكن من تخمين معنى كلمة بسبب وجود عبارة أو كلمة دالة على التناقض مثل :

ولكن yet = لكن but = في المقابل in contrast - على العكس من../على خلاف Unlike

- Some people think that sports are unimportant, but I think they are vital.
- لو أنك لا تعرف معنى كلمه vital، يمكنك تخمين معناها حيث أن الجملة تقول «يعتقد بعض الناس أن الرياضة شئ غير مهم ، لكنني أعتقد أنها». من خلال السياق نفهم أن vital عكس unimportant وبهذا يكون تخمين معنى الكلمة سهل وهو (ضروري) أو (مهم)
 - 🙋 قد تخمن معنى الكلمة أيضا من خلال البدايات أو النهايات المتعلقة بأصل الكلمة
 - مثال: ﴿ نفهم من خلال السابقة -im في كلمة impossible (التي تعني "غير" أو " ليس" أنها عكس (التي تعني "غير" أو " ليس" أنها عكس (possible فيكون معناها [غير ممكن/مستحيل)
 - مثال آخر: نفهم من خلال اللاحقة less في كلمة homeless التي تعنى (بدون/بلا) أن معنى الكلمة (بلا مأوى/مشرد}
 - ③ يمكنك تخمين المعنى من سياق الجملة من خلال الكلمات التي تسبق الكلمة أو التي تليها .
 - 🚳 مثال :

- It rained hard through the night so the ground was wet.
- ماذا تعنى كلمه <mark>Wet؛ إذا كنت لا تعرف معناها بمقدورك تخمينه من خلال الجملة التي سبقتها " كانت السماء تمطر بغزارة خلال الليل لذلك الأرض كانت.... لقد كانت تمطر بشده مما يعني أن الأرض لابد أنها كانت (مبتلة).</mark>
- والمناف طريقة بسيطة جدًا: ترجم الجملة كلها واترك فراغ مكان الكلمة التي لا تعرفها ثم فكر أي كلمة باللغة العربية تتماشى مع معنى الجملة فمثلا أنت قرأت جملة تقول:
 - The work is boring. There is nothing I find interesting about it.
 - حاول تخمين معنى "boring" هنا.

ما هي الأنماط الأكثر شيوعا في استُلة قطعة الفهم:

أولاً: أسئلة الاختيار من متعدد (multiple-choice)

- 🚺 قد يطلب واضعَ الامتحان منك الفكرة الرئيسية (main idea) في النص من خلال صيغَ مثل:
- The main idea of the passage is......
- The passage is mainly about......

وعليك أن تختار الإجابة الصحيحة من أربعة اختيارات تُعطى لك.

- تكون جملة وليست سؤالا.
- هي النقطة الأساسية التي يكرر الكاتب الحديث عنها.
- غالباً تكون في أول جملة أو آخر جملة في النص.
- الجمل الأخرى في النص تعطى تفاصيل ومعلومات عنها.

المثال الآتى: 🚳 لاحظ المثال

- ما باللون الأحمر هي الفكرة الرئيسية وما باللون الأزرق هي التفاصيل عنها.

Yesterday, I got a new coat. My new coat has blue lines and red sleeves. My coat is very nice and keeps me warm. On the back, there is a picture of a snow man. I will wear my coat to school.

- وقد يقوم واضع الامتحان بإضافة خط تحت أحد الكلمات في جملة معينة في القطعة ثم تجد سؤال اختيار من متعدد الكلمة الموضوع تحتها خط تشير إلى

ثانياً: الأسئلة المقالية (open-ended questions)

- قد يكون هناك في القطعة رأى/ نصيحة ويسألك هل أنت موافق على هذا الرأى/هذه النصيحة أم لا مع ذكر السبب: • Do you agree with this opinion / advice in the passage? Why / Why not?
 - 2 قد يرتبط موضوع القطعة بك فيسألك مثلاً : هل تحب أو هل تكره _ _ _ _ _ ؟ لم؟ ولم لا ؟
- Do you like /dislike....? Why / Why not?
 - ا 🗿 قد يطلب منك ان تعطى عنواناً مناسباً للقطعة أو تذكر الفكرة الرئيسية لها:
- Give a suitable title to the passage.

ار شادات للاجابة عن أستلة قطعة الفهم

ثاث: اُسئلة (open-ended) استفهامية

🚺 قد يطلب واضعَ الامتحان منك تلخيصاً (summarize) لإحدى الفقرات في النص في جملة واحدة بالصيغة الآتية:

• Summarize the first / second √ third paragraph (into one sentence).

in and thereby , i. .

- حدد اسم الشخص او الشئ او الحيوان الاساسى بالفقرة المطلوب تلخيصها
- َ حَدَدُ اهْمُ شَيَّ يَخْصَ ذَلِكَ الشَخْصَ أَوِ الشَيَّ اوِ الحيوان واستَخْدَمَ اهمَ الافعال بالفقرة للتَعبير عَن ذَلَكَ وممكن استخدام افعال اخرى تؤدى نفس المعنى.
 - استَبعَد الأفكار الفرعية او الغير أساسية او المعلومات الأقل أهمية
 - أكتب الفكرة الأساسية في حدود خمسة كلمات أو حسبٍ ما يطلب

1- Summarize the first paragraph of the text in two lines.

Tourists come to Egypt to see the Pyramids, temples and other monuments. It is a wonderful visit for them. Tourists also come to see the wonderful natural world such as the desert and the Red Sea.

نتبع الخطوات السابقة:

- ا- الفقرة تتعلق بشكل اساسى بالسائحين tourists
- ٢- أهم ما يخصهم هو زيارة مصر والأماكن السياحية بها والأفعال التي تعبر عن ذلك come / see /visit
 - ٣- استبعد المعلومات الأقل أهمية من كل جملة.
 - 3- قم بكتابة تلخيص الفقرة

Summary

Tourists come to Egypt to see the Pyramids and the wonderful natural world such as the Red Sea.

Read and listen to Omar's blog post.

SB page 5

Hi, I'm Omar! This summer was great. I played football every day! At first, I played with some of my neighbors(1) in the street. Our street is quiet and very safe. We had a lot of fun and we liked to imagine(2) that we were famous(3) football players! Then, a new boy joined in. He told me about a football club in our area. One afternoon, I decided to go to the club.

There were lots of boys playing in two teams(4) and I watched them for a while. Then, the coach saw me and asked if I played football, too. "Do you want to try playing with the team?" he asked. Of course, I did! The coach watched me kick(5) the ball and said I was a talented(6) football player. He asked me to join the team. For the next six weeks, I played with my neighbors in the morning and then with the team at the football club in the afternoon. It was very tiring(7), but really fun! At the end of the summer, we took part in a tournament(8). I was nervous(9) about it, but excited. I tried my best and scored three goals! Our team won the tournament. It was an amazing end to the summer!

Guessing the meaning of new words

When you find a new word, first try to understand what type of word it is. Does it describe a person or a thing (a noun), or an action (a verb)? Other words in the sentence can help you. For example, before a noun we usually find an article (a tournament, the game), an adjective (new friends) or a verb (I played football). You can use the meaning of these other words to help you find the meaning of the new word.

We picked up litter⁽⁶⁾ from one part of the city, put it in bags, and took it to the recycling center⁽⁷⁾. The week after that, eight people came and then after that there were twelve of us. The group grew and grew over the vacation⁽⁸⁾ and now it has twenty-four members.

I started, I didn't know that AI can write really good stories. You imagine that only people can write stories, but AI can give a helping hand (13). I was surprised! Most of the stories I read were fine, but sometimes I found something strange in them. For example, there was one story where the sun never sets (14). Of course that's not possible, so I changed that part of the story.

c. Two months ago, I started helping out at a project in my city. In this project young people like me help adults who can't read and write Arabic. My partner⁽¹⁶⁾ was Mrs Azza and she was very nice. First, we looked at the alphabet⁽¹⁷⁾ together. I said the sound for each letter and Mrs Azza repeated⁽¹⁸⁾ it. Sometimes, she nearly gave up, but then I said things like: "You're doing really well! Don't stop now." It was fun to be a teacher instead of⁽¹⁹⁾ a student, especially⁽²⁰⁾ when I asked her: "Did you do your homework this week?", or "What did you learn yesterday?"

It was great to help Mrs Azza learn something new.

Hadaya: What did you do in the summer holiday, Mariam?

Mariam: I visited my aunt and uncle in Edfu. It's near to Aswan and there's a beautiful temple(1) there.

Hadaya: Oh, yeah. It's an ancient temple, isn't it?

Mariam: Yes, and it tells us a lot about what life was like in Ancient Egypt, so it's a special place. Unfortunately⁽²⁾, there are some problems⁽³⁾ at the Temple of Edfu. The weather⁽⁴⁾ in Egypt is bad for the stone walls. The wind and sand very slowly cut the stone away⁽⁵⁾.

Hadaya: That's too bad. Do lots of tourists come to the temple?

Mariam: Yes, and all those people's feet are bad for the stone, too.

Hadaya: Is anyone doing anything to protect(6) the building?

Mariam: Yes. Volunteers(7) work with archaeologists(8) on the buildings. Some of them are students like us who help in the summer holidays. They can stop these bad effects(9) on some buildings, but there isn't enough time

or people to help all the buildings at the same time.

Hadaya: That's a pity(10). And the buildings are so old, aren't they?

Mariam: Yes, because they're very old, they need lots of care(11) and repairs(12).

Basel : So, Younis, what's your answer to the first question: did you help other people in the summer vacation(1)?

Younis: Yes, of course I did. I helped out at my parents' restaurant. I cleaned the dishes and cleaned the floor in the restaurant at the end of the day. I often went to other shops to buy things that my parents needed, too. I would say I often helped my family and friends in the

summer vacation.

Basel: Great, so you helped your family and you learned how

to work in a restaurant.

Younis: Yes, that's right.

Basel : How about sports? How often did you do sports?

Younis: Every day, I think. I always played sport in the summer vacation. I love

playing football with my friends near my building(2).

Basel: So, you were active(3) in the holidays?

Younis: Yes, definitely(4).

Basel : The next question is: How often did you do something to help your community?

Younis: I often volunteered to help at a project(5) in my community. People walk around the streets, collect(6) litter and recycle(7) it. Then our streets are

cleaner and we can use the paper and plastic again.

Basel: Sounds great(8). Can I join in too? I never did anything in my community in

the holidays, but I want to start helping out.

Younis: Of course, Basel.

Basel: The last question is: did you learn anything interesting online(9) this

summer? How often did you go online?

Younis: I sometimes went online at home in the evening. I was usually tired in the evening. But sometimes I watched some videos about how to make

videos with a phone and how to edit(10) the videos so they look good.

Basel: That sounds useful.

Younis: Yes, I want to give it a try myself now.

Born on 12th December 2007. Hang became Egypt's youngest ever national champion(9) in 2019, at the age of 12. Just one year later; she came top of the ITTF(10) (International Table Tennis Federation) under- 15 women's world rankings(11) - the first African and Arab player to do so. Then, in 2022, she won a top award⁽¹²⁾ at the ITTF African Cup in Lagos⁽¹³⁾. What an achievement(14)!

The United Nations chose Hana to take part(15) in Shabab Balad, a project in Egypt to help young people learn and connect in the world of work.

Although Hana is still much younger than many of her opponents(16), she works just as hard as any older player. She has also spoken about how important it is for her to take things step by step(17), always learning and trying hard to achieve(18) her victories(19).

Negative النفي

• بشكل عام يحول الماضي البسيط للنفي بإستخدام (didn't) مع تحويل الفعل للمصدر.

Ex. I didn't visit my family.

Ex. He didn't eat fish.

• يمكن استخدم (never) بدلاً من (didn't) ويأتى بعدها الفعل في زمن الماضي البسيط.

--السؤال بــ " هل...؟"

Ex. Did she ride her bike?

Lessons 1&2

My summer was full of fun and learning! I played in a big tournament with my friends, which was exciting. I also helped out at a community garden, planting flowers and learning about plants. To give back to my community, I taught some adults how to read and write in Arabic. It was rewarding to see them improve. I tried writing some cool stories using AI, which was like magic!

Lessons 3&4

I once visited a very old place with amazing things. It was a temple in Aswan. It was very old as it was about 3000 years old! There was a tall monument made of stone called an obelisk, and a big statue of a person. These were many monuments from a long time ago. The temple was very special, and lots of people came to see it. I took many photos to remember this amazing place.

My favorite sport

Dear Hussein.

It is nice to write to you. I want to tell you about my favorite sport. Table tennis, also known as ping-pong, is my favorite sport. It's a fun and exciting game that can be played indoors or outdoors. All you need is a small table, two paddles, and a tiny ball. The goal is to hit the ball over the net so your opponent can't return it. I hope to hear from you soon.

Yours.

Mohammed

My weekend was fun! On Saturday, I woke up late and had breakfast. After that, I went to the park with my friends. We played games and laughed a lot. In the evening, I watched a funny movie at home. On Sunday, I helped my mom with the housework like cleaning the house. Then, I read a book in my room and went to bed.

I'm sending you a photo of me at my grandma's birthday party⁽¹⁾ last week. The party was at my grandparents' house and our whole family was there. We all had a lot of fun together⁽²⁾!

The party showed me that sending messages⁽³⁾ to your friends and family is fine⁽⁴⁾, but it's not as good as⁽⁵⁾ spending time with them. You can laugh⁽⁶⁾ with them, hug⁽⁷⁾ them, and look in their eyes and really listen to them.

Do you have time to meet up with⁽⁸⁾ me one afternoon next week? Maybe⁽⁹⁾ on the weekend? We could go to the shopping mall. There's a shop there that has some beautiful clothes in its windows⁽¹⁰⁾. I could ask my parents for some money for the cinema or to go to a restaurant. My dad's friend Ali opened a new restaurant last month and it looks great. What do you think?

Write soon and tell me about your family.

Love,

Malak

Seif: Grandpa, why don't you sell(1) some of this old furniture(2) online? That

way you can get some money for it.

Grandpa: I don't know ... Is it safe(3)?

Seif: It's safe as long as (4) you follow (5) a few rules (6).

Grandpa: Can you tell me what they are?

Seif: I can, yes. First, always use a well-known (7) website (8)

to buy or sell something. Here's a good one. OK, what

do you want to sell?

Grandpa: How about this table?

Seif : Great. Can you give me your phone so I can

take a photo of it? Thanks. OK, the next thing to remember⁽⁹⁾ is: always be honest. Make sure⁽¹⁰⁾ all the information⁽¹¹⁾ you give about something you're

selling is true (12).

Grandpa: Well, this is a large table from the 1970s. It's in good

condition(13).

Seif : OK. Now, another very important rule is: don't

share(14)personal information(15), like your name, date

of birth(16), address (17), or bank account details(18).

Grandpa: Got it. What happens next?

Seif : Someone will send you a message if they want to buy the table.

Grandpa: And then will I meet the person to give it to them?

Seif: It's better to send it to them. In fact, that's another important rule. If

you have to meet someone, meet them in a public place (19) and don't

go alone (20).

Grandpa: Thanks, Seif. We never did this when I was your gae (21)!

Lessons 1&2

Last Sunday, I went to my friend's sister's wedding. It took place in a big hall. Both the bride's and the groom's relatives came together to celebrate the wedding. The bride and the groom were happy to sign the marriage contract and cut the wedding cake. They were fantastic in their beautiful outfits. The bride wore gold bracelet and a necklace, and the groom was fantastic in his traditional galabeya. The quests loved the reception where they are meals and danced very much.

Lessons 3&4

"Buying things online"

The internet has made buying and selling things very easy. If you want to sell something online, just share its pictures with some information about it and wait for buyers. Make sure that all the information you share is true. Be careful and don't share any personal information about yourself, like date of birth, address or bank account details. If you have to meet the buyer, meet them in a public place and don't go alone.

Lessons 5&6

Friends are like stars. They are always there, shining brightly in our life. They make life more enjoyable and meaningful. Without friends, one always feels alone and lonely. A true friend is the one who is always there for you when you need help. You can make face-to-face or online friendships. Online friendships can sometimes be very good. Last month, while I was chatting with someone from Canada, I found out that we have many things in common, like reading books and listening to music.

Al Azhar

Weekends are special to me. On weekends, I can do many things like visiting my grandparents, going to the sports club, meeting my friends or staying home to relax. On weekends, I sometimes go out with my family to the public park where we can enjoy our time there playing games and having snacks. we can go to the zoo to see the animals there. Weekends are very important for everyone to have and enjoy after a whole week of hard work.

An Unusual Hobby

When Nermine's family move to(1) Oxford for her dad's job, she misses(2) her hometown⁽³⁾, Alexandria. She decides to use her favorite hobby, geocaching⁽⁴⁾, to explore(5) the citu.

Geocaching is a special sort(6) of outdoor treasure hunt(7). Just like a normal(8) treasure hunt, you solve clues(9) to help you find something interesting - the treasure. But in geocaching, the clues come from an app (10) on your phone. When you solve the clues, you get coordinates(11), which are pairs of(12) numbers. These help you find the treasure - the geocache(13), a box

with small, interesting things in it. In Alexandria, Nermine loved geocaching(14) with her friends. She's worried that her new classmates (15) might think

geocaching is geeky⁽¹⁶⁾, so she doesn't tell them about it. Then, one lunchtime, Nermine is looking at a new challenge(17) on her phone when two girls from her class, Sarah and Ella, come over. "What's that game?" asks Sarah.

Nermine explains. "There are millions of geocaches all over(18) the world. When you find one, you don't take the treasure. You write your name in a logbook (19) to tell other geocachers(20) that you found it, then you put it back. If you want, you can put something new into the geocache for other people to find."

"That sounds fun(21)!" says Ella. "Can we play, too?

"Sure! But this is a really difficult one."

"That's okay. Three heads are better than one, so maybe we will find the treasure more quickly together!" Their classmates notice(22) that Nermine, Sarah, and Ella are spending all their lunchtimes together. They ask questions and soon there are ten of them geocaching.

When they find the geocache, they discuss (23) what to add to it. They decide on (24) a school chair and a shell (25) from the beach in Alexandria.

One day, Nermine, Sarah, and Ella decide to make their own geocache. They tell their math teacher. She thinks their idea is good and says that the geocache could be a challenge for the rest⁽²⁶⁾ of the class.

The clues lead(27) the class all over the school. It's hard work and they have to work together. Nermine feels included (28) and happy. Finally, they work out the coordinates and find the geocache. They all have such a good time that they don't even mind(29) that the treasure is extra(30) math homework!

Hey Nader,

I'm happy to write this email to you. How're you and your family? I've been playing a lot of football lately, but I also enjoy reading and taking walks in nature. Sometimes I write in my journal about it! Do you like any of those things? I'd love to hear what you're doing besides studying.

Write soon and tell me your news

Yours, Ali

Subject: Need some help with Math, Uncle Fareed!

Hi Uncle Fareed,

Hope you're doing well in New York! I'm writing because I'm having a problem in math class. I can't understand some of the lessons, although I try to focus with the teacher's explanations.

It's making it hard to study for tests, although I spend a lot of time working on problems.

Do you have any advice on how to get better at math? Maybe there were some tricks you used in school?

Yours, Yossif

Lessons 5 & 6

My Favorite Free-Time Activity

I love spending my free time exploring nature. It's a great way to relax and appreciate the beauty of the world around me. I enjoy walking in the mountains and camping in the forest. There's something so peaceful and calming about nature.

I also like to go fishing and bird watching. It's a great way to learn about different species and know more about life on Earth.

What's your favorite free-time activity?

Al-Azhar Test

I just wanted to share something cool! I recently got into geocaching! It's so interesting learning about it. If you've always dreamed of finding buried treasure, you should definitely give geocaching a try. This is an outdoor treasure-hunting game where you can use GPS to search for hidden containers called "geocaches."

General exercises on Unit 3

I love spending my free time playing sports. It's a great way to stay active and healthy. I enjoy playing football and basketball. They're both interesting sports that I find really fun. Also, I love exploring new places and trying new things. I enjoy visiting museums and art galleries, learning about different cultures and interesting places. Sometimes, I like to go hiking or camping in the mountains, or exploring nearby forests. I also enjoy cooking and baking. I like experimenting with different recipes.

A Ellie, Sweden

I live next to a huge forest, so I like to go on long walks in nature. I also volunteer some of my time at the local community garden: I help grow vegetables that later go into meals at the community kitchen. Last summer I also volunteered at the kitchen, but I'm not good at cooking!

B Josh, UK

I love being active, so I'm always doing something. I go to the sports center nearly every day. I run and swim there. They have a great indoor swimming pool. I also do karate three times a week, but I'm still learning. I'm not very good yet, but maybe one day I'll compete.

C Luca, Italy

When I'm not at school, I'm usually playing chess (sometimes, at school too!). There's a tournament next month, so I'm training for that right now. In my last one, it was really close: I got second place! I play a lot of games, usually against the computer, but I also spend a lot of time learning about different positions.

D Nadia, Egypt

I feel great when I'm helping others. My mom's a teacher and I help her teach adults to read and write. It's great to see them improving day by day. When I'm not doing that, I like writing about myself. I keep a journal about my life, and I also like to write stories. I often use AI to give me ideas about what to write.

Inventions for a sustainable future

Our world has many problems. We need new ways to help us take care of⁽¹⁾ our planet⁽²⁾ and fix some of the problems it faces⁽³⁾. Here are some exciting new inventions which will help us.

Tree-planting projects

When we go online, we see online advertisements(4). Some search engines(5) give the money they get from advertisements to help treeplanting projects(6) around the world.

EcoATMs

We use regular(12) ATMs(13) to take money out or put money into our banks. Eco-friendlu(14) ATMs help us recycle(15) old electronic devices(16). When you put your old device in it. the machine tells you how much money you can have for it. You can keep the money or give it to a charitu(17)!

Solar-powered airplanes

Most airplanes(7) aren't good for our planet. Solarpowered(8) airplanes fly using power⁽⁹⁾ that comes from solar panels(10). It is very clean power. The planes can flu around the world, day or night. It's an exciting new invention(11) for the future!

Plant-based batteries

Scientists are developing batteries(18) that work using material(19) from plants. The way these batteries are made is better for the environment than traditional(20) batteries. In the future, they could even produce(21) enough power to run electric cars(22)!

When you go online to send messages, play video games, download an app or just check⁽¹⁾ your social media⁽²⁾, it's important to remember a few simple rules⁽³⁾ that can keep you safe.

ا- يتصفح ۲- وسائل التواصل الاجتماعی ۳- قواعد وقوانین ٤- رموز کتابیة ۵- مخترقین/ متسللین

1. Choose strong passwords:

It's important to use a password that is a mix of letters, numbers, and special characters⁽⁴⁾ like! & or \$. Long passwords are also a good idea as they are hard to guess. Never use your name or date of birth, your pet's name, or anything that hackers⁽⁵⁾ can guess from your social media.

2. Think before you post:

When you post a **comment**⁽⁶⁾ or photo on social media, it stays there **forever**⁽⁷⁾ - even if you **delete** ⁽⁸⁾ it from your account. Don't post or share anything nasty or false.

٦- تعليق ٧- للأبد ٨- يحذف

3. Be careful of friend requests:

Don't accept friend requests⁽⁹⁾ from people you don't know.

Always tell your parents if someone you don't know sends you messages or wants to chat with you and don't click on any links they send you. Never share personal information⁽¹⁰⁾ with anyone.

9- طلبات صداقة ١- معلومات شخصية

4. Be kind online:

Cyberbullying⁽¹¹⁾ is a big problem for young people. It's easier for bullies to post horrible messages online as they can hide behind a <u>false</u> name. Cyberbullying can happen any time you are online-at home, at school, or out with your friends. Tell an adult if someone is bullying you. And always be kind online.

A talk about science and technology

Science and technology- so what's the difference?

The main difference⁽¹⁾ between science and technology is that they have different aims ⁽²⁾. Science tries to increase⁽³⁾ our understanding⁽⁴⁾ of how the world and everything in it works. Technology tries to solve problems⁽⁵⁾ and help us to do things more efficiently⁽⁶⁾. Science is about asking questions about the natural world, questions like, if this happens, why does this

always happen next? It's about looking carefully and recording exactly what we see. In science, when we believe something is true, we do tests to check our ideas. If we can use science to prove something, we know it is a fact. For example, we can do tests to show that, at sea level, if fresh water cools to a temperature of zero degrees Celsius, it always freezes into solid ice.

In technology, we use the information we learn from science to solve problems and find new ways to do things. Sometimes we do this by making devices which can help us like phones and computers. If you want to understand the relationship between science and technology, think about electricity. Many devices use electricity. We can't design a new phone if we don't understand how electricity works. So, in short science can explain this for us. In short, science is about understanding the world, but technology is about doing things to help it.

Scammed

Ali read the post carefully, and then read it again. "No way!" he thought.

ويا ويا الستمع إلى النصوص

He was on his favorite gaming forum⁽¹⁾. Usually, he used it to chat to other gamers, but this morning another type of post caught his eye. In it, someone wanted to sell a

limited-edition (2) games console. Consoles like that were very expensive, and there weren't many of them. Ali wanted it!

Ali checked the time of the post:2 am. It was now 8 am. Maybe he could be the first person to message the seller!

From his part-time⁽³⁾ job in a restaurant, Ali had some savings⁽⁴⁾. He also had LE500 from his grandma for his birthday. He checked his account: yes, he had enough for the console!

The seller had a good profile (5) and lots of positive reviews. So, Ali sent him a message.

This console looks awesome! (6) Why is it half price?

The seller replied quickly. He explained that the console was a present, but he already had one. He sent Ali some photos and videos of it.

Thanks, Ali messaged back. I'll take it!

The seller told Ali where to send the money, and Ali made the payment (7). He felt excited-his friends would be amazed when he told them!

Every day, Ali waited for the console to arrive. After three days, he messaged the seller again.

The console hasn't arrived yet. When did you send it? Another three days went by. No reply. No console. Ali began to worry. He messaged the seller again.

The console still hasn't arrived. Please reply!

Nothing. A whole week went by, and then another, until finally Ali realized it was a scam (8). He felt terrible, and very embarrassed. All his money was gone and he had nothing to show for it (9).

Eventually, (10) Ali knew that he needed to tell someone.

Mom, Dad, I need to talk to you....

Ali felt much better after speaking to his parents. They helped him report the scammer.

The next time Ali went onto the gaming forum, the post was gone, He felt glad about speaking up (11), so the scammer couldn't do the same thing to someone else. He also learned to be cautious (12) when shopping online. It was a difficult lesson, but an important one.

Over the next few months, Ali worked hard at the restaurant and saved up (13) enough money to buy the console from an official seller.

"Remember" he said to his friends when he proudly (14) showed them his new console. "If something doesn't seem right, stop, think, and speak to your parents or another adult for advice. It could be a scam."

Lessons 1&2

1. Inventions for the future.

Do you know about the future? Our world has many problems. We need new ways to help us take care of our planet and fix some of the problems it faces. Some search engines give the money they get to help tree-planting projects around the world. Scientists are developing batteries that work using material from plants.

General Exercises 1&2

2. Future projects.

When we go online, we see online advertisements. Some search engines give the money they get from advertisements to help tree-planting projects around the world. The world's oceans are full of plastic which is very bad for life in the ocean. Oceans clean-up projects collect rubbish in the water, then ships take it back to land for recucling. Those are new projects which help our planet.

Lessons 3&4

3. How to stay safe online

The internet is very important. We use it every day. It is very useful. When you are online, you should follow some rules to stay safe. Keep your password secret. Don't tell anyone about it. Don't make friends with people you don't know. Don't tell people your personal information like your telephone number or your address. Don't send photos to people you don't know. Computers are probably the most important modern invention. <u>They</u> are machines which follow programs that help store and control electronic information. A computer

can do difficult sums very quickly. Computers are important for three main reasons. They are flexible, accurate and can store a lot of information in their memory. Computers are now used in banks, factories and at home. The internet allows people to communicate with anyone around the world in seconds. Most books are now made with the help of computers. Even doctors use computers to help them examine their patients. So, we thank the inventor of this lovely machine.

Lesson 1: Climate change

استمع إلى النصوص

How climate change is affecting me

1. Hi, I'm Leonie. I live in a village in Andalusia in Spain. Hot weather in summer is normal for us, but this summer the highest temperature⁽¹⁾ was 46 °C. That's about five degrees warmer than it normally⁽²⁾ is. My family is having a lot of problems because of⁽³⁾ the hot weather here.

2. My family lives on a farm. Because of the hot weather, there's a drought⁽⁴⁾ in the south of Spain right now. The tomato plants on our farm are getting smaller and some of their leaves are brown. Because of the drought, we can't give the plants as much water as they need. My family therefore don't have enough tomatoes to sell. My dad is looking for a second⁽⁵⁾ job so he can earn⁽⁶⁾ more money.

3. We're also having some problems⁽⁷⁾ with our health. My mom had heatstroke⁽⁸⁾ last week and she stayed in bed for three days because, she was too ill to get up. She had a fever⁽⁹⁾ and she was really tired all the time. We were very worried about her, but, fortunately, she's feeling better now. Some of my friends had heatstroke, too. I'm trying to stay inside as much as possible, so I don't get heatstroke as well.

4. The worst⁽¹⁰⁾ thing about this summer for me was that our school closed for a week. The teachers said it was dangerous for us to travel to school because it was so hot. It was also too hot for us to be at school because we don't have air conditioning⁽¹¹⁾ there. I missed my friends when we couldn't go to school. I hope that never happens again!

Thirsty planet

Water scarcity⁽¹⁾ is one of the most worrying⁽²⁾ problems facing the world today. Although water covers more than 70% of Earth's surface, two billion people don't have enough⁽³⁾ fresh, clean water for drinking, washing, cooking, and growing food. Even in countries where there are good water resources⁽⁴⁾, the water cannot always reach the people who need it.

On average⁽⁵⁾, temperatures are higher than they were in the past. In some places, there is also less rain, so there isn't as much water in lakes and rivers.

Water scarcity affects people in different ways. Farmers, for example, can't grow as many crops as they used to. Without crops to sell, they can't earn enough money to pay for clean water. A lack of water can also mean that people have to walk a long way to find it, which can have a negative (6) effect on their health. The biggest impact can be on children, who have less time to spend in school.

Another problem is that people often can't find clean, safe water. The dangerous of metals and bacteria in dirty water can make them very ill. This can be more dangerous for children than for adults because their bodies are less able to fight the illnesses of children than for adults because their bodies are less able to fight the illnesses. Solving the problem of water scarcity is not simple. However, there are lots of things that can help such as finding new water sources and developing new technologies to produce and clean water. It is also important that people who live in countries with plenty of of the countries of that no action is taken, and more people suffer.

Tips to be more eco-friendly in the home

Air conditioning⁽¹⁾, hot water, and electronic devices⁽²⁾ in our homes all use a lot of electricity.

Making electricity uses a lot of the planet's resources⁽³⁾, which can make climate change worse.

Let's help our planet - let's save energy⁽⁴⁾ at home!

a. Remember to always switch off lights, TVs, computers, games consoles (6), tablets, and all of your electronic devices when they aren't in use. Don't leave them on stand-by (6) as this still consumes a lot of energy and don't use more than one device at the same time!

- b. There are about 150 to 200 liters of water in an average⁽⁷⁾ bath, but there's only between 30 and 80 liters in a five-minute shower. Showers are a great way to save water⁽⁸⁾ and energy. But don't spend a long time in the shower: set the alarm⁽⁹⁾ on your phone for five minutes and then stop!
- c. There are lots of things in our trash that we can recycle or even reuse at home. Plastic bottles are a good example. Reuse them to make other things, for example a bird feeder, or a hanging basket for your plants.

- ا. تكييف الهواء
 - ۲. أجهزة الكترونية
 - ۳. مصادر
- ٤. يوفر الطاقة
- ه. أجهزة التحكم بالألعاب
- ٦. وضع التشغيل
- ۷. في المتوسط
- ٨. توفير المياه
 - ٩. منيه

Types of rocks

Teacher:

Good morning class. Today we're looking at different types of rocks for module 3 on the structure(1) of the Earth. Tarek, please show the first slide. That's it, thank you. The Earth's surface(2) is, as you can see, made up of layers(3) of rocks. Rocks are solids⁽⁴⁾ which are made of minerals. Rocks can be grouped⁽⁵⁾ into three types depending on which minerals (6) they contain and how they were formed.

Teacher:

The three types of rock we're looking at today are sandstone⁽⁷⁾, basalt⁽⁸⁾, and marble. Sandstone is usually found near the Earth's surface. It's formed from the broken parts of other rocks and material when they press⁽⁹⁾ together. The youngest layers of sandstone are at the top. The oldest layers are at the bottom. The Ancient Egyptians used sandstone to build things, like the Sphinx at Giza. Now, if rock becomes very, very hot, it melts(10) into liquid. Basalt is a type of rock that forms when liquid rock cools(11) again

ا. ترکس ٦. سطح الأرض ٣. طبقات ٤. أشياء صلية ٥. تجمع فيمجموعات ٦. معادن ۷. حجر رملی ٨. حجر البازلت 9. يضغط ا. پذوب اا. يبرد

and becomes solid. We find these rocks in the bottom layers of the Earth's surface. It can make some amazing natural shapes.

Here's an example. This is the Giant's Causeway in Ireland. Finally, let's look at marble. Marble is also found in the bottom layers of the Earth's surface. It forms when other types of rock get very hot and the minerals in them change form. Marble is a very strong type of rock. It is often used to make statues, like this one here from Ancient Greece.

Identifying the structure of a poem

Every poem has a different structure. The structure helps to show us what the poem is about or how the poet felt when he or she wrote it. When you look at a poem and you want to know what structure it has, notice these things about it:

كل قصيدة لها بناء مختلف. يساعد هذا البناء في توضيح موضوع القصيدة وما هو شعور الشاعر عند كتابة القصيدة. هناك ثلاث عوامل للتعرف على القصيدة:

- 1. How many stanzas it has -Stanzas are the different parts of a poem that usually have a blank line between them.
- 2. Which words rhyme -When two words end with the same sound, they rhyme.
 - ٣- مدى تناغم الكلمات. عندما تنتهى كلمتان في صوت واحد. يكون لهما نفس القافية.
- 3. Personification When the poet gives qualities of a person to a thing.
 - ٣- التشخيص/التجسيد. عندما يعطى الشاعر صفات بشرية إلى شيء غير عاقل.

Rami's eco blog

Hi, my name's Rami. Last year, I watched a documentary⁽¹⁾ about the effects of human⁽²⁾ activities on the planet. After that, I decided to make some changes⁽³⁾ in my life because I wanted to be more eco-friendly⁽⁴⁾. In the past, I always traveled

my life because I wanted to be more ecofriendly⁽⁴⁾. In the past, I always traveled to school by bus, but now I ride my bike to school. It only takes 15 minutes, it's healthy⁽⁵⁾, and it's fun!

Before, I never put my trash in the recycling bins and I

never thought about if it was recyclable (6) or not. Now, I always look for the right type of recycling bin and put my trash in it, because I understand how important it is to reuse (7) the Earth's resources.

Now, I also try to switch off all my tech devices - like my laptop and my games console - when I'm not using them, because I know that this saves energy and that's good for the planet, too.

We can all do things that help in small ways!

What changes have you made to help the planet? Leave a comment below.

We asked our readers to tell us about the traditional⁽¹⁾ food that they love. Here's what they said!

Most Egyptians know hawawshi. It is a type⁽²⁾ of bread with meat, vegetables, and spices⁽³⁾ inside it. Some people like to add cheese to it too. You bake it in the oven⁽⁴⁾ and eat it warm. Delicious⁽⁵⁾! You can also find it in some parts of the Middle East.

Samir, Cairo

Chipsi mayai, which is also sometimes called zege, is a very popular traditional food here in Tanzania. We make it with fries and eggs fried in oil⁽⁶⁾. I love it, but I don't think it is a very healthy snack⁽⁷⁾, so I don't eat it very often!

Maakouda are very popular⁽⁸⁾ in Morocco, Algeria, and Tunisia. We make them

with potatoes. We boil the potatoes in hot water, then make them into small balls. Sometimes we put meat, fish, or cheese in them, too. Finally, we fry them in a lot of oil and serve⁹⁾ them in a sandwich. They're so good!

Youssef, Agadir

Dear Sir or Madam.

My family and I ate at your restaurant (1) last Wednesday. The restaurant is clean and comfortable (2), but unfortunately (3), we did not enjoy our meal (4) very much at all. It took a long time for our starters (5) to arrive. We kept saying to each other: "When did we order (6) our food? I think it was 40 minutes ago!" I ordered a special (7) salad which must be quick and easy to make. After 50 minutes, the waiter (8) brought our starters to us. The starters tasted delicious (9), but then our main courses came about one minute after we finished eating the starters! We didn't like that at all. We all ordered sauadieh el samak as our main course (10). When it arrived, there weren't any tomatoes on our plates (11). "Why did your cook put no tomatoes on our plates?" we asked the waiter. He said, "We don't have any tomatoes today." After all of that, we weren't sure (12) if we wanted desserts. But, as it was my daughter's birthday (13), we decided (14) to order them anyway. Five minutes after we ordered, the waiter came back to our table and asked us, "What did you order for dessert (15)?" At that point, we decided to pay for the food we had and leave. I had ordered basbousa and I can also buu that in a sweet shop. So, that's what I did! Your restaurant is a nice place, but I really think that you need to make some changes (16). Our

family definitely (17) doesn't want to eat there again unless you improve your service.

Regards,

Randa Al-Katib

Farah : It's called Barramundi. It's a river fish⁽²⁾ from Australia.

Mom: Where does the name come from?

"What's that?" asked Magdu.

"It's a coffee cup," said Sami. "And look, there's another over there."

Magdy and Sami were in their local park. Lituwas a beautiful day and the flowers were in bloom⁽¹⁾, but everywhere they looked there were used cups, plastic straws, and old food containers⁽²⁾. "Most of this trash comes from a nearby café," said Magdy. "Why don't we set up a café that makes almost no waste⁽³⁾?"

"No waste? How is that possible?".

"Well, take this coffee cup. Next time the person who used it wants a coffee, they can bring their own cup to the cafe. In return, they pay less for their coffee."That's a good idea."

"And instead of plastic straws⁽⁴⁾, our café can give paper straws that don't hurt the environment⁽⁵⁾." Sami's eyes lit up. "There are ways to reuse waste, too. Think of all

The two friends were excited. They talked about their ideas all the way home.

Soon, Magdy and Sami bought an old building near the park. They cleaned it and painted it bright colors with environmentally friendly⁽⁷⁾ paint. They put in recycled glass windows and used old pieces of wood to make tables and chairs. They also hung lots of plants from the ceiling. On the roof, was a little garden for growing herbs, fruit, and vegetables.

A few weeks later, The Living Café opened. It was quiet at first, but then people started to notice⁽⁸⁾ it. They liked the way they could help save the planet with their morning coffee! More people came for lunch, and said the food tasted delicious and very fresh. They were excited to hear that some of the ingredients⁽⁹⁾ grew on the roof of the café. The Living Café quickly became the most popular café near the park.

One day, Magdy and Sami walked through the park again. This time, there weren't any used coffee cups on the ground. There were a few straws, but they were paper. Magdy picked one up and put it in the bin.

"Every little act helps!" he said, smiling.

SB Page (80)

Read the text quickly. Which of the problems in the photos are mentioned in text:

Water world

In some countries around the world, not having enough clean water is a big problem. In fact, almost two thirds of the world's population face water scarcity at some point during the year.

This means having to walk a long way to find clean, fresh water, or not having enough to drink, cook, and wash.

Not having enough water can have a bad effect on people's health. Our bodies need a lot of water to stay healthy, but dirty water can make us very ill.

People who need water to earn money also suffer when there isn't enough. For example, farmers need water to grow crops. Without it, they don't have enough. crops to sell.

Some research shows that the problem of water scarcity is getting worse because of climate change. We must act now to find a solution!

Listening

SB Page (81)

Listen to the dialog. What does it mean to "eat green"?

Eating green

Hana: What are you doing, Menna?

Menna: I'm reading an article about ways to "eat green".

Hana: You mean ways to eat more green vegetables?

Menna: Hana, no, not exactly. Eating green is about making food choices that

don't harm the environment.

Hana : Oh, I see.

Menna: Our food choices have a big impact on the environment, you see. They

can either increase, or help to reduce, climate change.

Hana : Can you give me an example?

Menna: Sure, no problem. Choosing local produce can make a big difference. If

you buy food that is grown near to where you live, it doesn't need to travel

long distances to get to you.

Hana: That's true. I guess driving or flying food around the world causes pollution.

Menna: Exactly. Secondly, try to buy food that has little or no packaging. Or,

check that the packaging is made from something like paper or cardboard.

Plastic packaging is the worst!

Hana: OK, got it.

Menna: Another thing you can do is to only buy as much as you need. Throwing

away lots of food is a huge waste.

Hana: That's all really good advice". I will think more carefully about my food

choices in future. Thanks, Menna!
